Up-to-Date Merchants.

C. R. Brabham's Sons, who are wide-awake and up-to-date merchants, have put in a line of fine hats and shoes for men. They are now handling the Crofut & Knap hats, which are known as the standard of style and elegance; and they have also put in a line of Florsheim shoes for men. This make of shoes is one of the very best high grade shoes on the market to-day, and men who want to be well dressed will appreciate this spirit of progressiveness on the part of these gentlemen. In addition to their strong line of ready-made clothing, they represent the Globe Tailoring Co., which makes to order only, and the careful dresser can be fitted in a tailor-made suit, a nobby hat, and shoes of the latest style at their store. They have been handling the well-known line of Hamilton-Brown shoes for ladies and children for several years, and there is no better shoe on the market.

Election Returns.

The Bamberg Herald office was a popular place Tuesday night for a few hours, many citizens of the city being on hand to hear the election returns. The bulletin service of the Southern Bell Telephone and Telegraph Company was excellent, and we take this occasion to publicly thank the local manager, Mr. F. F. Shores, for his hard work and untiring efforts to give us the news. He went up to Denmark, where the bulletins came in by wire, and repeated them to Bamberg as well as a number of other towns in this territory. About ten o'clock the bulletins indicated beyond a doubt that Taft had carried New York State, and as the bulletins kept coming in they showed Republican successes in States thought to be doubtful. By eleven o'clock it seemed certain that Taft was certainly elected, although a small number stayed with us until one o'clock.

Another Negro Shot.

Last Saturday night William Isaacs shot and seriously wounded Bounce Miller. Both parties are negroes, and the difficulty occurred out in Varnville where it is said a crowd of negroes were gambling. From the meagre reports we have been able to get it seems to have been a gambling row. Miller was shot once with a pistol, the bullet taking effect in his left side and ranging downward. He is getting along as well as could be expected, but he is seriously wounded and may die. Isaacs has been freeman at the cotton mill. He claims that Miller attacked him with a knife and he was forced to shoot him in self-defence. Isaacs is in jail.

The Cotton Market.

Cotton is selling in Bamberg today at 8.90, and a good lot of it is coming to market as we go to press. The receipts for the past week have been about four hundred bales, and the total receipts so far this season are over eight thousand bales.

The Election in South Carolina.

Tuesday's election in South Carolina was not different from preceding ones, although we believe the final returns will show that a much larger number of Democrats voted than usual. In Bamberg county a larger number of votes were polled, our people seeming to be more interested in the general election. In this city 242 votes were polled for Congressman Patterson and Bryan, and six for Taft. At Denmark there were 180 Democratic votes and sixteen Republican. At Olar nearly 100 votes were cast, all Democratic. Some negroes here and at Olar voted for Bryan. The vote in the State gave about fifty thousand majority for Bryan.

In Lexington county A. D. Martin was elected county superintendent of education over two opponents, his majority being large. The Independent candidates for county supervisor in Richland and Lee counties were defeated.

Three counties voted on the liquor question, and in all there were big majorities against the sale of liquor. In Laurens the vote was more than two to one against sale; in Chester the majority against sale was even greater, and in Clarendon the majority against sale will also be very large.

The Civic League.

The Civic League of Bamberg bids fair to do some great things for the town in the way of improving uncomely places, making suggestions to the city fathers as to some needed changes in the appearance of the town, etc.

It is said that in a certain town in South Carolina the ladies became so imbued with the idea of cleanliness and beauty that they did not stop at cleaning up the public places, but went so far as to invade a certain old bachelor's den and gave it such an overhauling and general shake up that the gentlemen of leisurely manners and inclination did not know upon his return home but that some one had superseded him as a tenant. However, he did not raise any great objections, and the ladies felt that they were doing a great work, so every one was content.

In another town the ladies of the Civic League Association got right in behind the merchants, and by appealing to their sense of the beautiful, they succeeded in having all the sign boards on the principal business street removed. Another league had all merchants to have signs made alike, and thus added considerably to the appearance of what is usually an unsightly scene.

It is not definitely known just what line of work the ladies of Bamberg will pursue, but it goes without saying that there is plenty of work to be done. It is hoped that within the next few months the Bamberg league will have a great deal to show for their work. They now have a small working cash basis, and when their plans have been fully developed some fruits may be looked for. In the spring of this year one of the leading daily papers of South Carolina endeavored through its correspondents to have a series of articles from each town in the State, which articles were to point out the work of the various Civic Leagues in South Carolina. Perhaps it was fortunate for Bamberg that there were not enough towns in the State to make the articles worth while, for at that time Bamberg was without an organization, and what was worse, Bamberg had little in the way of public improvements to brag on. But it is believed that by next spring this town will be on the live list, and should a call be made for evidence of improvement, Bamberg's Civic League will be in the forefront with much to the credit of league and town.

Letter to Prof. E. P. Allen, Bamberg, S. C.

Dear Sir: We should like to set your boys and girls at work on this question in arithmetic and casuistry.

A farmer is fattening three hogs in three small pens; they have equal room and straw and care, and are fed in these three ways: first hog, on a certain proportion of milk and cooked cornmeal; second hog, on the same, half water; third hog, on the same, half water and sawdust. How long will it take, how much will they weigh, how much will they cost, and what'll the profit be on the three?

And a similar question in pigmentery. That same farmer is going to paint three barns same size; and he says to three painters: "what'll you take to paint that barn?"

First painter scratches his head a few minutes and says: "I'll do it for \$50."

Second painter: "\$75."

Third painter: "\$97.48."

Will they each get a barn to paint, or get two, or one all three, or nobody any; and what'll they make on the job?

That's about how painting goes sometimes. But there is a way to reckon: \$5 a gallon. The difficulty is in knowing how many gallons to buy. There's a way out of that.

Buy the least-gallons paint, Devoe. No matter how much one buys; he returns what's left: costs nothing.

Yours truly

F W DEVOE & CO.

P. S. J. A. Hunter sells our paint.

Others Had Egret Feathers.

Warrants were issued for the Jas. L. Tapp company and Mr. W. H. Monckto, manager of the Globe Dry Goods Co., on the charge of violating the law for the protection of non-game fowls. The cases were called before Magistrate Fowles. The defendants pleaded guilty and each was fined \$2.

This is the second step in a crusade which Secretary Rice of the Audubon society is instituting for the protection of all non-game birds, Mr. A. G. Douglas having been fined an identical sum some two weeks ago.

This proves that Columbia merchants keep the real article and not "something just as good" when they handle finery for the women of South Carolina. Mr. Rice's object is not to embarrass merchants but to make people aware of the law.—Columbia State.

Manning May Enter Race.

Sumter, Oct. 30.—Among the many prominent men who attended the State fair at Columbia this week, none received more attention at the hands of the visitors than did Senator Richard L. Manning, so declare the Sumter people now returning from the capital city.

Quite a considerable "boom" for Mr. Manning for governor two years hence to succeed Gov. Ansel was apparent at every hand, and from all sections of the State as was represented in Columbia this week.

Mr. Manning would make no positive declaration touching the efforts being made to induce him to announce his candidacy further than to say:

"It is too early to announce candidates. The people have just gone through a heated primary and the general election is upon us. We are surfeited with politics at the present. Later I shall make a positive statement as to my intentions, though at this time I am not willing to say more than the strong probability is that I shall make the race."

Crazed by Son's Sentence.

Atlanta, Ga., Oct. 31.—Crazed by the sentence of her son to five years in the penitentiary for burglary, Mrs. Annie L. Hamilton was found by the police lying in Hunter street, near Butler, after having wandered the streets all night. Yesterday her son, Charles Hamilton, was given 5 years by Judge Roan who ignored the recommendation of the jury to treat his offense as a misdemeanor. That, her son's predicament was proving a great strain upon her was shown when she fainted in the court room during the trial.

Mrs. Hamilton was taken to the police station and turned over to the care of the matron by whom she was given every attention. She is suffering from a hallucination and her cries for her son, whom she imagines is lost, are heartrending. In addition to having her mind affected, Mrs. Hamilton is suffering from the aimless wandering all night through the streets.

MILLS ON FULL TIME

Union and Buffalo Mills Will Start all Idle Machinery at Once.

Union, Oct. 31.—Better times are now at hand. The Union Mills and Buffalo Mills will now be run to its full capacity for President Aug. W. Smith has telegraphed from New York that all idle machinery now be started up as rapidly as possible. This means that 800 looms and 18,000 spindles will at once be put in operation, as soon as the necessary operatives can be taken on.

This indication of better times does not only affect the industrial circle in Union, but is an evidence of the improved condition everywhere, and will come as good news especially to people of this city and county.

The Wooten Case.

Lexington, November 1.—It was stated in this correspondence to-day that the prosecutors in the case of Z. W. Wooten, the white man, who it is alleged, assaulted his little stepdaughter, an imbecile, had not been heard from. The wife of Wooten and her daughter and her two brothers came in on the late train yesterday afternoon, and a preliminary will be held here to-morrow before Magistrate Bachman of Brookland, who will come here for that purpose. The prosecutors claim that they can prove every allegation.

The Colleton Association.

This body convened with the Little Saltkeatchie church Friday of last week. The introductory sermon was preached by Rev. J. M. Craven from Matt. 6:18, 19. The preacher was just finishing the discourse as we reached the church, and his closing words were pointed and powerful.

The letters were read and then the officers were elected as follows: F. O. S. Curtis, moderator; clerk, J. S. Griffin; assistant clerk, H. J. Givens; treasurer, Jos. Langdale. The second church of Walterboro was received into the body. After announcements the body adjourned and the congregation enjoyed delightful lunch under the trees in the yard.

The afternoon session opened with the discussion of Temperance. The report was read by Rev. B. F. Halford, and it was a vigorous paper and was followed with a vigorous speech by Bro. Halford. The Aged Ministers' report followed read by Bro. Curtis, and spoken to by him and W. W. Keys. The body adjourned for the day after the announcements at 4 o'clock.

Saturday morning the clouds had cleared away and the attendance was larger than the day before. The orphanage, Foreign Missions and Sunday schools received attention during the morning, and good reports and speeches were made on each subject. Dr. Derieux on State Missions, Bro. Curtis on Foreign Missions, and H. J. Givens on Sunday-schools. The writer left at the dinner hour. It was expected that the business of the body would be finished in the afternoon and that there would be preaching on Sunday. The churches were well represented and the spirit of the meeting was excellent.

The church is situated in one of the good sections of Colleton county, the people are prosperous and hospital, and took good care of delegates and visitors. The representative of The Courier fell into the hands of Bro. J. H. A. Carter, an alumnus of Furman, and the principal of the school at Lodge, the railroad town two miles away, and a progressive and prosperous farmer.

The church is better known as Carter's Ford than by its real name, and is one of the largest country churches in the State, having on its roll more than four hundred names. Rev. E. W. Peebles has just closed a pastorate of thirty-four years, preaching his last sermon the Sunday before the Association convened. He is greatly beloved by the congregation and many were the expressions of regret at giving him up. The church, with two others, has formed a field and called Rev. G. A. Martin, of Williamston, and we understand he will soon move to the community and enter upon his work.—Baptist Courier.
